

GENERAL DESCRIPTION

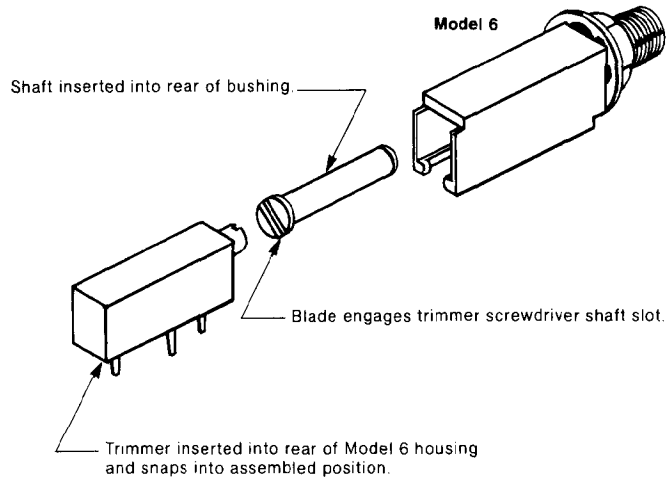

Spectrol's standard 3/4-inch and 1-1/4-inch rectangular trimming potentiometers, the Models 43 and 70, may be easily panel mounted through the use of Spectrol Model 6 Panel Mount Adapters. The adapters are designed to convert

these standard trimmer models into panel mount trimmers in a quick, convenient, and economical manner. Assembly with the trimmer is accomplished by snap-in, providing for minimal installation time.
